

Detail Product of PT Listrikum

Cross Flow Water Turbine

Spesification

GAE Cross flow water turbine for microhydro electricity . Capacity is upto 250 kW
Making electricity from falling water seem like magic, and that's led to lots of misconceptions. With separate fact from fiction when it comes to what microhydro systems can and cannot do. Modern microhydro equipment comes from proven technology based on designs that have changed very little over the decades.
SPECIFICATION Type : Head Medium Type Turbine : Cross Flow Power : 15 - 200 kWatt Frequency : 3 x 380 Volt High water : 50 Hz sinusoidal Voltage : 15 - 100 meters
Volume of water : 50 - 2000 liters / sec
